

HIGH PERFORMANCE HYDRAULICS.

Protex delivers high performance hydraulic braking solutions with an exceptional range of brake fluid and hoses. Our range covers everything from vintage to the latest models, and everything in between.

- Protex offers 700+ hoses for most Australian vehicles complying to SAE J1401 Spec
- Protex hoses exceed international specifications in volumetric expansion, tensile strength, and burst characteristics
- Protex has the facility to custom build and test specialist hoses in both rubber and braided variants upon request
- Protex Brake Fluid is available in DOT3, DOT4 and Super DOT4 ratings

Optimum Performance

Our products are manufactured with high-quality components and the latest technologies to provide parts that are equal to or better than the original part

Best Range

Our extensive range of hydraulics cover most vehicle applications on Australian roads

Quality Guarantee

We stand behind our quality, with our extended 2-year / 50,000km warranty on all caliper and hydraulics assemblies for maximum peace of mind
